"Thank you so much for offering these classes online! I have taken many of them and have enjoyed the learning experiences too. I have encouraged other teachers at my school to try some of these classes for recertification. It's so much easier to have online classes that will fit into your schedule after work or during the summers."

Ida L.

* Clock hour courses are available for credits based on your state, e.g. clock hours, CEUs, PGPs, PDUs, etc.

99% of teachers would take another PLB course.

Teachers
Introduction to Autism
Recognizing Early-onset Mental Health Disorders in Children and Adolescents
Student Centered Learning
Suicide Prevention
Understanding ADHD

"I learned a lot about teaching ELL students. The difference between social and academic literacy changed the way I teach students. High expectations, a calm demeanor and validation of the student as a person while not tolerating off-task behaviors is something that I will continue to use."

Brian R.

"All courses were very informative and interesting. Thanks for the knowledge!!!"

Patricia L.

STANDARDS

Curriculum-Based Measures
